

ORGANISATIONAL ENVIRONMENTAL POLICY STATEMENT

The company's aim is to provide a comprehensive high quality, cost effective, customer orientated service to all its customers and is committed to deliver through works where quality, service and performance are paramount, whilst minimising its effect on the environment. In their activities J.B.C. Control Systems Limited are committed to:-

- Continuous improvement of its environmental performance and prevention of pollution;
- Compliance with all relevant legislative and regulatory requirements;
- Using energy efficiently and implementing energy saving measures;
- Ensuring all its activities are conducted in such a way to cause minimum negative impact on the environment;
- Minimising waste product, disposing of waste in a proper manner using registered carriers and recycling suitable materials wherever practicable;
- Promoting the use of products that are friendly to the environment and achieving reductions in the use of environmentally unsuitable products;
- Promoting the conservation and sustainable use of natural resources;
- Raising the awareness of environmental issues within J.B.C. Control Systems Limited employees and working in partnership with clients and suppliers to promote environmental issues;

In order to achieve this J.B.C. Control Systems Ltd will:

- Operate an integrated environmental management system and adopt working practices that minimise the negative effects and/or enhance the positive effects the company has on the environment;
- Where appropriate set objectives and targets to promote continuous improvement of its environmental performance;
- Audit and review environmental performance and the effectiveness of the environmental system;

- Train and educate all employees in respect of its environmental policies, objectives and responsibilities and encourage the contribution every employee can make towards improving environmental performance.

The director responsible for standards, quality and training as the management representative, has delegated authority for developing and implementing systems to meet the international environmental standard ISO 14001.

J.B.C. Control Systems staff and sub contractors have been made aware of this policy statement.
